

Spring Equinox Gathering

March 20, 2023 via zoom - 5 pm PST.

What an exciting time here on Earth!

March is non-stop preparation for the Equinox gateway as pieces of the shadow self, memories and programming continue to unravel and dissolve. The most potent block you won't let go of is showing up daily in various forms asking you to identify it. Once recognized, it can be gone. Repeat...I see you; I love you; it's time to go.

We are stepping into the new energies after the equinox, with the ability to access higher ascension gateways. Much is happening around "water" as an alchemical element across the multiverse. We are 70% water, so we are feeling this as well.

On Monday, March 20, @ 5 PM PST, we will be solidifying the exit of these blocks and patterns you have been working with this month, sitting with the earth vibration through the drum and then opening up for the new energies and gateways with the alchemy crystal bowls.

Over these last few months, some of you have started to have your voice activated, and some are opening up / remembering your dormant gifts. Light language throughout the evening should help with this further. We will also discuss your divine tone and the healing power of your voice.

Should this offering resonate with you, please send via e-transfer to cindyhsd@icloud.com \$44 I will confirm and send the zoom link out the evening before

With much love & gratitude
